TECHNICAL SKILLS

Languages

C#, JavaScript, Dart, SQL, HTML5, CSS3

Frameworks

ASP.NET WebForms, ASP.NET Core Web API, Flutter, React, jQuery

Database

MySQL, Entity Framework Core

Mobile

Flutter, Firebase Cloud Messaging, Google Maps API

Tools

Git, GitHub, Visual Studio, VS Code, MySQL Workbench, Figma

Other

REST APIs, Responsive Design, JSON, Linux, Debugging, UI/UX

CERTIFICATIONS

ITIL Foundation Certificate in IT Service Management

ICT Competence for Industry 4.0 (Laravel & MySQL)

LANGUAGES

English – Professional Working Proficiency

Malay – Native

EDUCATION

B.Sc. Applied Physics

Universiti Teknologi PETRONAS
2017 – 2020 • Nanotechnology

PROFESSIONAL SUMMARY

Full Stack Developer with nearly 3 years of professional experience designing and developing web applications, mobile applications, RESTful APIs, and internal business systems. Experienced in ASP.NET, C#, Flutter, React, JavaScript, and MySQL, with a strong focus on building practical software that improves business operations. Passionate about continuous learning and creating personal projects that demonstrate modern software engineering practices, including language learning platforms and tournament management systems, available in my portfolio.

PROFESSIONAL EXPERIENCE

Software Programmer GamTechnology Sdn. Bhd.

July 2023 – Present

- Develop and maintain enterprise fleet management software used by commercial clients with thousands of users.
- Build and publish cross-platform mobile applications using Flutter for Android and iOS.
- Design and develop RESTful APIs using ASP.NET and MySQL for communication between backend services and mobile applications.
- Develop responsive web modules using JavaScript, HTML, CSS, jQuery, and DataTables.
- Implement Firebase Cloud Messaging (FCM) for mobile notifications.
- Optimize MySQL queries and backend logic for enterprise fleet management systems, efficiently processing and reporting on datasets containing millions of GPS and telematics records.
- Troubleshoot production issues and deliver enhancements for both web and mobile applications.
- Analyze and optimize report performance on multi-million-row datasets, reducing execution times and improving application responsiveness.
- Investigate production incidents and implement long-term fixes to improve system stability and reliability.
- Design intuitive user interfaces and user experiences for web and mobile applications, balancing business requirements with usability.

Junior Front-End Developer

Cenozai

September 2022 – November 2022

- Developed responsive user interfaces using React, TypeScript, and Tailwind CSS.
- Built reusable UI components for internal company applications.
- Worked closely with designers and developers to improve usability and maintainability.

EDUCATION

Bachelor of Science (Applied Physics)

Universiti Teknologi PETRONAS | 2017 – 2020

Specialization in Nanotechnology. Relevant coursework included programming fundamentals using C and Pascal.

Final Year Thesis: Nano-surface Functionality of Zinc Ferrite: Ascorbic Acid Nanofluid Application in Enhanced Oil Recovery
